

How to Make a Skiing Bear Ornament

By: Hannah Hendrix

After you finish this craft you can
decorate anything with a hook!

Materials

To make this marvelous craft you will need:

- 1 ribbon
- 1 pair of foam bear legs
- 1 foam body of a bear
- 2 short foam pieces for scarf and hat
- 2 foam snowflakes
- 2 foam skis
- 2 brown foam pads for paws
- 1 brown foam mouth
- 1 foam hat

Step One

First glue the pair legs to the back of the bear's body.

Be careful with the legs because they like to break.

This is a view of the body and legs after they are glued on.

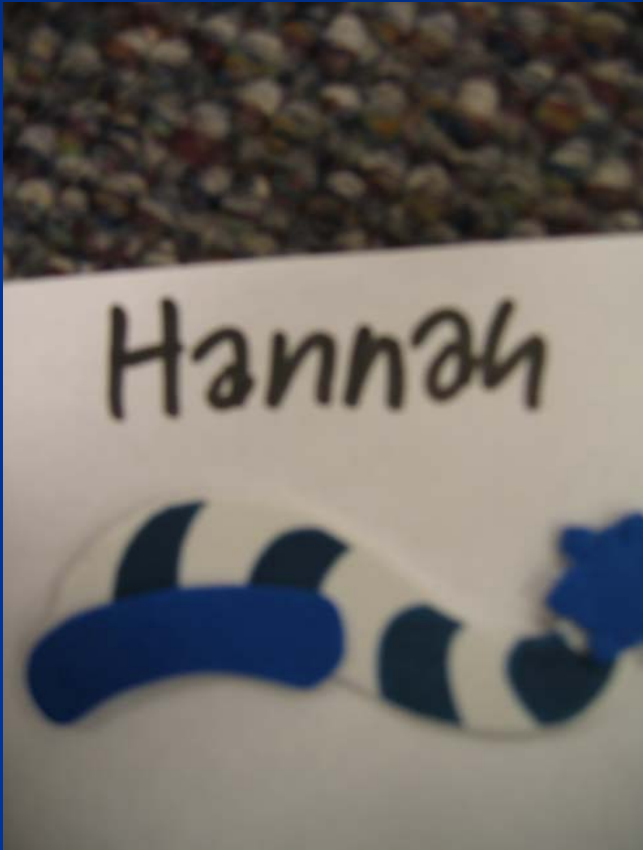

Step Two

Then add the one brown pads at the end of each arm.
Now it looks like it wants to hug you.
While you are doing this think of what you want to name it.

Step Three

Then add one of the little blue pieces to the hat and glue the blue snowflake to the end

Next glue the whole thing to the bears ears.

Step Four

Next put the nose
right below the eyes
so he can smile at
you!

Then put the other
little blue thing
around his neck and
put the fringed blue
piece on the bottom
so he doesn't get
cold. Almost done!

Step Five

Now glue the skis on the back of each foot in an X.

Finally glue the ribbon to the back of the bear's head, so it makes a loop.
